* PEP Berlin (short for Politically Engaged Philosophy) aims to bring together researchers who are interested in philosophy that critically engages with the social world, including (but not limited to) feminist philosophy, queer theory, critical race theory, de- and post colonial theory, trans philosophy, philosophy of disability. We're meeting once a month in a hybrid format and discuss work in progress by speakers whose papers will be circulated beforehand; unless explicitly announced otherwise, the papers and discussion is in English. If you're interested in participating and being on the PEP-mailing list, please send an email to ls.feminist.phil@hu-berlin.de
