PEP Berlin, the politically engaged philosophy work-in-progress group, brings together researchers who are interested in philosophy that critically engages with the social world, including (but not limited to) feminist philosophy, critical race theory, de- and post-colonial theory, trans philosophy, philosophy of disability. We're meeting once a month to discuss work in progress by speakers whose papers will be circulated beforehand; unless explicitly announced otherwise, the papers and discussion are in English. If you're interested in participating and being on the PEP mailing list, please send an email to [emilia.mertens@fu-berlin.de](mailto:emilia.mertens@fu-berlin.de)
